DEEPAK DONGARE

SENIOR CLOUD SECURITY ENGINEER | AZURE SECURITY | IDENTITY & ACCESS MANAGEMENT (IAM)

Pune, India | +91 84250 62561 | deepak.career@hotmail.com | linkedin.com/in/deepak-dongare | deepakd.online

PROFESSIONAL SUMMARY

Senior Cloud Security Engineer, Microsoft SC-500 certified, with 10 years of IT experience, including 7+ years securing Azure and infrastructure. Hands-on with cybersecurity, Entra ID, Azure and network security, endpoint protection, incident response and PowerShell and Python automation. Led TISAX Assessment Level 2 (AL2); secured 250+ users at RealThingks and 450+ at FinIQ. Available immediately.

CERTIFICATIONS

Microsoft Certified: Cloud and AI Security Engineer Associate (SC-500) | Microsoft | Verify Certification

CORE SKILLS

Identity & Access Management: Microsoft Entra ID (formerly Azure AD), Entra Connect, Multi-Factor Authentication (MFA), Conditional Access, Role-Based Access Control (RBAC), Privileged Identity Management (PIM), Privileged Access Management (PAM), managed identities, Single Sign-On (SSO), OAuth 2.0, Just-in-Time (JIT) access, Zero Trust

Azure Security & Governance: Microsoft Defender for Cloud, Secure Score reviews, Azure Policy, Azure Key Vault, Azure Monitor, Log Analytics, Cloud Security Posture Management (CSPM), CIS Azure Benchmark, Microsoft Cloud Security Benchmark, threat modeling

Azure Network Security: Virtual Networks (VNets), Network Security Groups (NSGs), Azure Firewall, Private Endpoints, Private DNS, Application Gateway, Web Application Firewall (WAF), Load Balancer, ExpressRoute, Network Watcher, VPN Gateway, Bastion, Site-to-Site and Point-to-Site VPN

Azure Infrastructure & Resilience: Virtual Machines (VMs), Storage, Azure Backup, Site Recovery, patch management, SSL and TLS certificates

Firewall & Endpoint Security: Sophos Firewall, Sophos Intercept X, NAT, Intrusion Prevention System (IPS), web filtering, TLS and SSL inspection, Extended Detection and Response (XDR), Endpoint Detection and Response (EDR), Data Loss Prevention (DLP), BitLocker

Security Operations & Risk: Nessus, Wireshark, alert triage, incident response, vulnerability management, security awareness training

Administration & Compliance: Microsoft 365 administration, PowerShell, Python, Azure CLI, Azure Automation, Azure Bicep, TISAX, ISO 27001

Learning & Basic Knowledge: Terraform, IaC (learning); Microsoft Intune, Microsoft Defender for Endpoint (basic)

PROFESSIONAL EXPERIENCE

Senior Cloud Security Engineer

Aug 2023 - Sep 2026

RealThingks India Private Limited (India operations closed)

Pune, India

- Led a two-person IT team reporting to the Country Head; owned Azure security, identity, network and infrastructure for 250+ users and endpoints; led decommissioning of services, accounts and hardware.
- Administered Entra ID and Active Directory; configured Single Sign-On (SSO) for 10+ apps including Microsoft 365, Azure portal and Salesforce; led MFA rollout across 250+ users; managed Conditional Access, RBAC, PIM and access reviews.
- Secured Azure with Azure Firewall, NSGs, Private Endpoints, Key Vault and Azure Policy; reviewed Defender for Cloud Secure Score against CIS Azure and Microsoft Cloud Security Benchmarks; prioritized risks such as open network access.
- Operated Azure VMs, storage, VPN Gateway, Azure Backup, disaster recovery and SSL and TLS certificates; reviewed backup failures.
- Configured Sophos Firewall rules, NAT, IPS, web filtering and TLS and SSL inspection; maintained network segmentation and VPNs.
- Protected user endpoints and shared project devices with Sophos Intercept X XDR, DLP, anti-malware, device controls and BitLocker; triaged Sophos Central alerts, ran root cause analysis, monthly Nessus scans and Wireshark analysis, and remediated findings.
- Led TISAX Assessment Level 2 (AL2) gap assessments and auditor coordination.
- Ran quarterly security awareness training (phishing, social engineering, attack methods); handled a CEO-impersonation gift card scam.
- Built PowerShell and Python scripts, run in sequence, for Azure and security reporting: daily backup failure and pending patch checks; weekly reports on users without completed MFA registration, inactive accounts and devices without BitLocker.
- Built CRM, skills and IT apps with Claude, Lovable and Supabase (login, role-based access), replacing Zoho CRM, Asset Tiger, Zoho Desk.

Network Engineer

Jun 2018 - Aug 2023

FinIQ Consulting India Private Limited

Pune, India

- Administered 100+ Azure VMs across development, test and production for banking clients; supported 450+ users, endpoints and systems.
- Implemented Entra ID, Entra Connect and Windows Server AD: Conditional Access, MFA for 450+ users, RBAC, PIM (JIT), PAM, SSO.
- Secured Azure networks with VNets, NSGs, Azure Firewall, Bastion and Private Endpoints with Private DNS; segmented environments on Zero Trust least-privilege principles; used Network Watcher for troubleshooting.
- Connected on-premises networks to Azure with VPN Gateway and ExpressRoute; maintained LAN and WAN routing; published web apps through Application Gateway with WAF and Azure Load Balancer.
- Operated VMs, storage, patching, Azure Backup and Site Recovery; validated recovery readiness.
- Monitored with Azure Monitor and Log Analytics; acted on Security Center (Defender for Cloud) Secure Score, Azure Policy and CIS recommendations; used Key Vault for secrets and SSL certificates.
- Led end-to-end response to a ransomware incident (Feb 2022): identified 11 affected systems out of 450, isolated them, removed the malware, restored services and documented root cause and lessons learned.
- Ran Nessus scans; supported ISO 27001 audits; used PowerShell, Azure CLI, Azure Automation; basic Intune, Defender for Endpoint.

IT Engineer

Nov 2016 - Jun 2018

Starconn Mobility Private Limited

Pune, India

- Supported LAN and WAN, DNS and TCP/IP; administered Active Directory accounts and permissions and backups.

EDUCATION

B.E., Electronics & Telecommunication Engineering | SGOI COE, Pune University (SPPU) | First Class 2016
