DEEPAK DONGARE

SENIOR CLOUD SECURITY ENGINEER | AZURE SECURITY | IDENTITY & ACCESS MANAGEMENT (IAM) | CYBERSECURITY

Pune, Maharashtra, India | +91 84250 62561 | deepak.career@hotmail.com | linkedin.com/in/deepak-dongare

PROFESSIONAL SUMMARY

Senior Cloud Security Engineer with 10 years of IT experience, including 7+ years across Azure and infrastructure. Experienced in Entra ID, Azure and network security, endpoint protection, vulnerability remediation, PowerShell and Python automation, incident investigation, backup and disaster recovery (DR) and security governance. Supported 230-240 users, 260+ endpoints, 20 shared devices and five on-premises servers. Led TISAX Level 2 activities at RealThingks and participated in ISO 27001 audits at FinIQ.

CERTIFICATIONS

Microsoft Certified: Cloud and AI Security Engineer Associate (SC-500) | Microsoft | Verify Certification

CORE SKILLS

Identity & Access Management: Microsoft Entra ID (formerly Azure AD), Entra Connect, Multi-Factor Authentication (MFA), Conditional Access, Role-Based Access Control (RBAC), Privileged Identity Management (PIM), Privileged Access Management (PAM), managed identities, Single Sign-On (SSO), OAuth 2.0, Just-in-Time (JIT) access, Zero Trust

Azure Security & Governance: Microsoft Defender for Cloud, Secure Score reviews, Azure Policy, Azure Key Vault, Azure Monitor, Log Analytics, Cloud Security Posture Management (CSPM), CIS Azure Benchmark, Microsoft Cloud Security Benchmark, threat modeling

Azure Network Security: Virtual Networks (VNets), Network Security Groups (NSGs), Azure Firewall, Private Endpoints, Private DNS, Application Gateway, Web Application Firewall (WAF), Load Balancer, ExpressRoute, Network Watcher, VPN Gateway, Bastion, Site-to-Site and Point-to-Site VPN, DNS, TCP/IP, network segmentation

Azure Infrastructure & Resilience: Azure Virtual Machines (VMs), Azure Storage, Azure Backup, Azure Site Recovery, backup monitoring, retention checks, recovery validation, patch management, SSL and TLS certificate lifecycle

Firewall & Endpoint Security: Sophos Firewall, Sophos Intercept X, NAT, Intrusion Prevention System (IPS), web filtering, TLS and SSL inspection, Extended Detection and Response (XDR), Endpoint Detection and Response (EDR), Data Loss Prevention (DLP), BitLocker

Security Operations & Risk: Nessus vulnerability scanning, Wireshark packet analysis, security alert monitoring and triage, incident investigation, root cause analysis, vulnerability assessment, remediation tracking, patching

Administration & Compliance: Microsoft 365 administration, PowerShell, Python, Azure CLI, Azure Automation, TISAX Assessment Level 2, ISO 27001 audit support, gap assessments, audit evidence and auditor coordination

Learning & Basic Knowledge: Terraform, Azure Bicep, IaC (learning); Microsoft Intune, Microsoft Defender for Endpoint (basic)

PROFESSIONAL EXPERIENCE

Senior Cloud Security Engineer

Aug 2023 - Sep 2026

RealThingks India Private Limited

Pune, India

- Led a two-person IT team reporting to the Country Head; owned Azure security, identity, network and infrastructure decisions; led IT decommissioning at company closure.
- Administered Entra ID and Active Directory for 10+ applications; led MFA rollout across 230-240 users and managed Conditional Access, RBAC, PIM, access reviews and joiner, mover and leaver processes.
- Managed Azure Firewall, NSGs, Private Endpoints, Key Vault and Azure Policy; reviewed Defender for Cloud Secure Score against CIS Azure and Microsoft Cloud Security Benchmarks; prioritized risks such as excessive network access or exposed storage and tracked remediation.
- Managed Azure VMs, storage, VPN Gateway, Azure Backup, disaster recovery and SSL and TLS certificates; reviewed backup jobs and failures, checked retention settings and supported restore and recovery validation.
- Configured Sophos Firewall rules, NAT, IPS, web filtering and TLS and SSL inspection; maintained network segmentation and VPNs.
- Protected 260+ endpoints and 20 shared devices with Sophos Intercept X XDR, DLP, anti-malware, device controls and BitLocker; triaged Sophos Central alerts, ran root cause analysis, Nessus scans and Wireshark analysis, and tracked patching and remediation.
- Led TISAX Assessment Level 2 (AL2) gap assessments, evidence preparation, remediation follow-up and external auditor coordination.
- Built PowerShell and Python scripts, run in sequence, for Azure and security reporting: daily backup failure and pending patch checks; weekly reports on users without completed MFA registration, inactive accounts and devices without BitLocker.
- Built internal CRM, skills and IT applications with Claude, Lovable and Supabase, replacing Zoho CRM, Asset Tiger and Zoho Desk.

Network Engineer

Jun 2018 - Aug 2023

FinIQ Consulting India Private Limited

Pune, India

- Administered 100+ Azure VMs and workloads across development, test and production for banking clients with access controls.
- Managed Entra ID, Entra Connect and Windows Server AD; administered Conditional Access, MFA, RBAC and PIM for hybrid identity.
- Supported Azure VNets, NSGs, Azure Firewall, Bastion and VPN connectivity; maintained LAN and WAN routing to Azure.
- Managed VMs, storage, patching, Azure Backup and Site Recovery; validated recovery readiness and supported vulnerability remediation.
- Monitored with Azure Monitor and Log Analytics; used Security Center (Defender for Cloud), Azure Policy, Key Vault; handled incidents.
- Participated in ISO 27001 audits: security reviews, evidence collection and audit follow-up.
- Used PowerShell, Azure CLI and Azure Automation for basic Azure and network administration tasks; basic hands-on use of Microsoft Intune and Defender for Endpoint.

IT Engineer

Nov 2016 - Jun 2018

Starconn Mobility Private Limited

Pune, India

- Supported LAN and WAN, DNS and TCP/IP; administered Active Directory accounts and permissions, backups, and Windows systems.

EDUCATION

B.E., Electronics & Telecommunication Engineering | SGOI COE, Pune University (SPPU) | First Class — 2016
